Profile Summary

Frontend React Developer with hands-on experience building responsive web apps using React.js, Redux, and Bootstrap/Tailwind CSS. Skilled in turning UI designs into functional components and integrating APIs. Passionate about clean code, good design, and continuous learning.

Education

Kalinga University, Raipur (Chhattisgarh)

2021 - 2024

- Bachelor of Computer Applications(BCA);

Skills

- Languages:** JavaScript
- Frontend Technologies:** HTML | CSS3 | Tailwind CSS | React.JS | Redux | Bootstrap
- Tools & Platforms:** Git (Version Control) | GitHub | Postman | VS Code | Figma

Experience

Ducatindia Private Ltd. | TRAINEE AND INTERN

July 2024 – Present

- Contributed as Frontend Developer Intern on **e-commerce**, enhancing **UI using React.js, HTML5, CSS3, and Bootstrap**.
- Built **user/admin dashboards** with features like **product listings, order tracking, and profile management**.
- Implemented Redux for state management and integrated **RESTful APIs** for dynamic data handling.
- Gained hands-on experience in **front-end architecture** and building **reusable UI components** during the internship.

Projects

ApniDukaan (E-Commerce Store) |

- Description:** Developed the frontend of Ecomzy, an online fashion store, using React.js
- Features:** Designed and developed **multiple web pages (Home, Login, Cart)** with interactive UI components, including **banners, forms, animated cards, modals, and buttons** for a seamless user experience.
- Deployment:** Deployed frontend on **Vercel and Netlify** for real-time testing and accessibility.
- Tech Stack:** **React.js, Redux, Deploy on Vercel and Netlify.**

NewsApp |

- Description:** Developed a responsive News App using **React.js**, consuming live news data.
- Features:**
 - Users can filter news by categories such as **Business, Sports, Technology, Health**, and more web pages with interactive UI components.
 - Fetches and displays the latest headlines from various categories using **public REST APIs** (e.g., NewsAPI.org).
 - Implemented using **React Router** for smooth navigation and client-side routing.
- Deployment:** Live version deployed on **Vercel** and **Netlify** with GitHub integration and auto-deployments.
- Tech Stack:** **React.js, Api Integration, Deploy on Vercel and Netlify.**
 - Built a dynamic and responsive user interface using React.js.
 - Utilized functional components, React Hooks (**useState, useEffect**) for state and lifecycle management.
 - Implemented React Router for seamless navigation between categories (e.g., Sports, Politics, Technology).
 - Designed using modern Bootstrap, with responsiveness for desktop and mobile screens.
 - Managed asynchronous requests using **fetch()** and **async/await** pattern.

Academic and Extracurricular Achievements

- MERN Stack Course by DUCAT (The IT Training School)
